Profile

Founding Team Member & Collaborative Lead with a proven track record of spearheading cross-functional initiatives from inception to scale. Expert at synchronizing Product, Sales, and Design to build high-velocity roadmaps and robust operating systems. Adept at transforming ambiguity into actionable strategy, prioritizing development to elevate user experience within fast-paced environments.

Experience

Spire Technology Inc. — **Remote, US**
Product Operations Manager — Jan 2025 – Present

- Joined as an early team member, helping define the company's direction in **sales, marketing, product planning, and culture** with a team of fewer than 10 people.
- Lead **end-to-end sales and marketing** efforts, including outreach calls, product demos, use case validation, positioning, and creating messaging and go-to-market materials.
- Contribute to **company and product strategy**, including goal setting, feature ideation, prioritization, and operating systems.
- Assist with **UI/UX design in Figma**, creating wireframes and designs to improve user experience.

AJS Remodeling — **Chicago, IL**
Project Manager — Feb 2021 – Dec 2024

- Scaled operations from inception, overseeing **100+ residential renovations** and driving **$1.1M in revenue.**
- Launched a **HubSpot CRM system** to automate client communication and increase project visibility and referrals.
- Directed **end-to-end project management** and design coordination, consistently delivering projects on time and within budget.
- Mentored **six contractor teams** to ensure alignment on timelines, quality standards, and resource allocation across concurrent projects.

Lighthouse Investments — **Stevensville, MI**
Associate Portfolio Manager — Jan 2020 – Jan 2021

- Managed a **35-property portfolio**, overseeing financial performance and 100% operational compliance.
- Engineered performance dashboards to track revenue trends, resulting in an average **10% revenue increase** across the portfolio.

Blueprint Alpha — **Chicago, IL**
Software Engineer Intern — Jun 2017 – Jul 2017

- Developed an object detection application for an AI startup, utilizing Java and machine learning models.
- Optimized database efficiency with 1,000+ 3D models, achieving a **20% improvement in detection accuracy.**

Volunteer Experience

(B.A.P.S.) Non-Profit Socio-Spiritual Organization — **Remote**
RCT Lead (Regional Project Manager Lead) — Aug 2014 – Present

- Lead national and regional teams in executing large-scale initiatives and multimedia projects
- Manage timelines, resources, and dependencies, maintaining comprehensive project plans to ensure consistent on-time delivery.
- Facilitate cross-functional multimedia campaigns while mentoring teams to ensure professional growth.

Education

Purdue University — **West Lafayette, IN**
